

Julian Martinez Gomez

React Developer

Buenos Aires, ARG / +5491131291059 · julianmzg@gmail.com · <https://julianmzg.com.ar> · LinkedIn

Fullstack Developer with over 4 years of experience in developing digital solutions using HTML, CSS, JavaScript, and React. Expert in leading teams and coordinating large-scale cultural events, managing projects from conception to execution. Proven ability to enhance product efficiency and functionality.

AREAS OF EXPERTISE

- Fullstack Development
- Project Management and Technical Coord.
- Training in Algorithms and Logic
- Frontend Development
- Working in Multidisciplinary Teams
- Sound Design and Production
- Back-end Development
- User Experience Optimization
- Event Management & Production

PROFESSIONAL EXPERIENCE

Fullstack Developer - Freelance

Buenos Aires, ARG / 2020 - present

- Developed over 15 complete websites using HTML, CSS, JavaScript, React, TypeScript, Node.js, and Next.js.
- Collaborated directly with over 20 clients to turn their ideas into functional and attractive web applications.
- Improved customer conversion rates by an average of 20% through the design and implementation of optimized user interfaces.

Coordinator of Technical Production Area - Ministry of Culture, Argentina

Buenos Aires, ARG / 2020 - present

- Coordinated the technical production of festivals and large-scale events across Argentina.
- Managed events from planning to technical execution, ensuring impeccable results.
- Implemented strategies to optimize production and reduce costs while maintaining high standards of quality and efficiency.

Music Producer / Sound Designer - Hybrid

ESP, URU, ARG / 2007 - present

- Led artists and multidisciplinary teams to achieve results that emotionally resonate with each client.
- Used advanced mixing techniques and specialized software to ensure professional quality in each production.
- Contributed to over a dozen national and international projects, building client connections through music and production.

Public Attention Manager - CCK

Buenos Aires, ARG / 2016- 2019

- Led public attention teams, managing visitor flows in spaces, concert halls, and auditoriums.
- Coordinated and planned the attention for more than 3,000 daily visitors in the third-largest cultural center in the world.
- Built relationships with top artists, officials, and public figures, ensuring a collaborative environment.

KEY ACHIEVEMENTS

Development of Complex Digital Solutions: developed and deployed complex and highly functional websites using a wide variety of programming languages, frameworks, and advanced tools. Implemented optimized algorithms and efficient backend solutions, personally covering tasks and roles that typically require a full team.

Coordination of Large-Scale Events: successfully managed the technical production of public events for up to 100,000 people for over 4 consecutive years, leading numerous and diverse teams, achieving optimal results.
